

Construction / Horticulture Tutor

Location: Keats Engineering and Education Ltd

Start Date: ASAP/ Spring Term 2026

Salary: Competitive, dependent on experience

Contract Type: Term-time

About Us

Keats Engineering and Education Ltd provides an engaging, practical, and personalised education for young people who thrive in vocational environments. Our learners access specialist pathways in construction, horticulture, mechanics, and engineering, supported by a dedicated multidisciplinary team. We are proud to be based at a Semi-Professional Football Club built on community values. Our directors and many of our dedicated staff volunteer their time to ensure our club is a welcoming, inclusive, and accessible community hub for everyone. We believe football and community projects should bring people together — both on and off the pitch — and we're committed to creating an environment where everyone feels they belong.

The Role

We are seeking an enthusiastic and skilled Construction / Horticulture Tutor to join our growing team. You will deliver hands-on, practical sessions in both workshop and outdoor learning settings, helping students to gain technical, employability, and life skills that support positive futures.

Key Responsibilities

- Deliver high-quality, engaging sessions in construction and horticulture.
- Inspire students through creative and practical teaching approaches.
- Promote safety, respect, and teamwork in all learning spaces.
- Assess learner progress and support individual development plans towards accredited courses.
- Contribute to student reviews, behaviour support, and progression pathways.
- Work collaboratively with staff and external professionals to support student success.

Essential Requirements

- Proven background in construction, horticulture, or related trades.
- Experience supporting young people with SEND or SEMH needs.
- Strong communication, organisational, and behaviour management skills.

- A passion for vocational learning and making a difference.
- Enhanced DBS (or willingness to obtain one).

Desirable

- Teaching qualification (AET or equivalent) or willingness to gain one.
- Experience in alternative provision or SEN settings.

Safeguarding and Recruitment

Keats Engineering and Education Ltd is dedicated to safeguarding children and young people. This post requires an enhanced DBS with barred list check and satisfactory references. In line with Keeping Children Safe in Education guidance, online searches will be carried out on shortlisted candidates.

To Apply: Please email Tom Wiles at t.wiles@keatsee.com for a full application pack. We reserve the right to close this vacancy earlier than the advertised date.
